

Mobile Download Instructions

FROM THE WEB-SITE (See Diagram A Below)

- 1) Login to the GetQuik site.
- 2) Click the "Customer Tools" link from the top right-hand toolbar.
- 3) From the "Customer Tools", select the "Mobile Information" link from the left-hand toolbar.
- 4) Enter your 10-digit phone number using the following number format 4085551212 in the field titled "Phone:"
- 5) Pull down the Carrier drop-down list to identify your carrier.
- 6) Pull down the Brand drop-down list to identify your handset.
- 7) Click the "Download" button to complete the process.
- 8) If you do NOT see your handset listed, click the "Brand not listed here? Click here to get wap" link.
- 9) Enter your 10-digit phone number in the "Phone:" field below the link. Select your carrier and then click the "Get WAP" button.

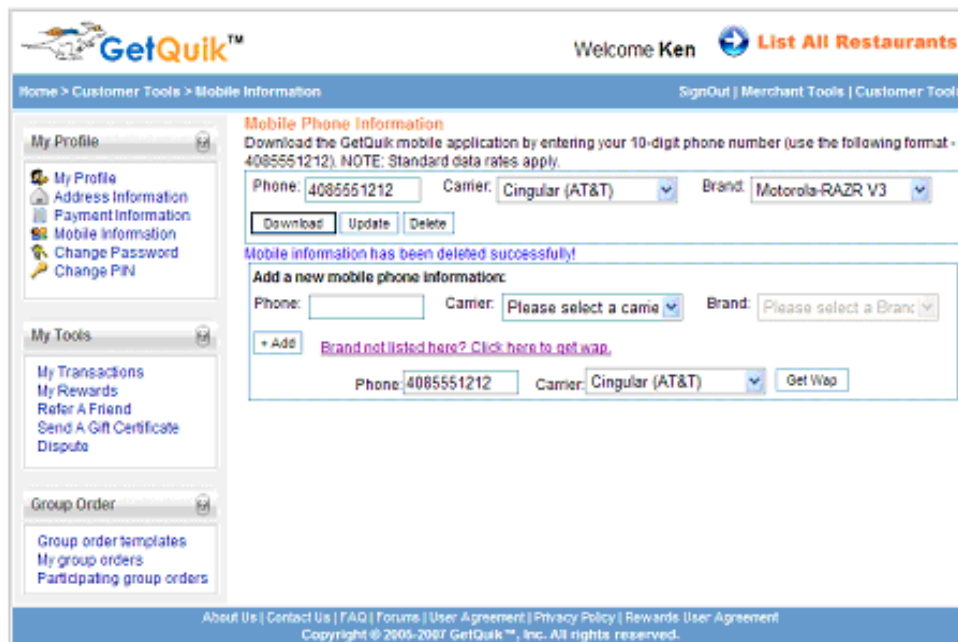

Diagram A: Mobile Download Screen Shot.

FROM YOUR HANDSET (Mobile Application Download)

- 10) You will receive a text message from GetQuik with the mobile client application download link.
- 11) Handsets can differ in how to access this link. For example with the Motorola RAZR V3, you need to click the menu button and select the "GoTo" option. For Blackberry devices, you can scroll and click on the link.
- 12) After clicking on the link, you will the application download process will begin. You will be prompted to confirm you wish to download the application.

- 13) Once the GetQuik mobile client application finishes downloading, you can access and run the application to order your favorites. See the "Sync'ing my Favorites to my Mobile Client" instructions to find out how to create favorites.

FROM YOUR HANDSET (WAP)

- 14) You will receive a text message from GetQuik. The text message includes your 5-digit "User ID".
- 15) Go to your mobile web browser and type in the URL: wap.getquik.com to access the GetQuik WAP client.
- 16) See the "Mobile (WAP) Usage Instructions" directions for instructions on how to use the GetQuik WAP client.
